Professor E.J. Post,  
Physics Department,  
University of Houston,  
Cullen Boulevard,  
Houston, Texas 77004,  
USA

Dear Professor Post,

Thank you very much for letting me see your review of Bunge's book: Philosophy of Physics. I am afraid it is not suitable for the BJPS since it does not put Professor Bunge's book in the perspective of philosophy of science but it provides rather an account from the physicist's point of view. For the BJPS we would need a review from a professional philosopher of science.

Yours sincerely,

*Imre Lakatos*

*Mario,*

*Some philosophers when philosophizing about physics  
don't care for a physicist's response; at least not for  
the response of the physicist.*
